Department of Geology & Geography
QUESTION BANK
 (Blooms Taxonomy)
 M.Sc.1st Sem. Paper- GEOMORPHOLOGY

Q.No.	Questions	Blooms Taxonomy Level
1.	Explain the Climate change and its effects on the earth .	Remember
2.	Describe the Uniformitarianism .	Remember
3.	Discuss the tensional force .	Remember
4.	Discuss the compressional force .	Remember
5.	Explain the Constructive plate margin .	Remember
6.	Explain the Destructive plate margin .	Remember
7.	Explain the Protective plate margin .	Remember
8.	What is weathering ?	Remember
9.	What is erosion ?	Remember
10.	Explain the denudation .	Remember
11.	What do you mean by abrasion .	Understand
12.	Explain the Artigen well and its effects of the surface .	Remember
13.	What do you mean by V – shaped valley ?	Understand
14.	What do you mean by U – shaped valley ?	Understand
15.	Explain the igneous rocks .	Remember
16.	Describe the sedimentary rocks .	Remember
17.	Describe the metamorphic rocks .	Remember
18.	Explain the difference between main central thrust and main boundary fault .	Analyze
19.	Discuss the new foulded mountain .	Remember
20.	Describe the definition , nature and scope of Geomorphology .	Remember
21.	Describe the history of development of Geomorphology .	Remember

22.	Describe about the types of plate boundaries.	Understand
23.	Explain the plate tectonic theory.	Remember
24.	Explain the factors of climate change .	Understand
25.	Describe the methods of study of landforms .	Apply
26.	Describe the glacial landforms	Remember
27.	Differentiate between Estuary and Delta.	Analyze
28.	Explain the geological structure of the earth .	understand
29.	Describe in detail Nife .	Remember
30.	Describe the morphogenetic regions .	Understand
31.	Explain the measures to reduce climate change .	Evaluate
32.	Explain the difference between constructive plate margin and destructive plate margin .	Analyze
33	Explain the classification of Himalaya .	Remember
34	Explain the erosional landforms of fluvial water (river) .	Understand
35	Explain the difference between Gorge and Canyon .	Analyze
36	Discuss the Epirogenic forces .	Remember
37	Explain the classification of weathering .	Understand
38	Discuss the normal cycle of erosion of Davis .	Create
39	Explain the mechanism of earthquake .	Create
40	Write a note on Volcanoes .	Remember
41	Describe in detail Natural disaster management	Remember
	Multiple Choice Questions	
42	Gave the continental drift theory : a. Wegener b. Kant c. Taylor d. Davis	
43	Climate change happens : a. Tree planting	

	b. Sustainable development c. CFC d. none of these	
44	The theory of Uniformitarianism was given : a. Davis b. Koppen c. Hutton d. Penk	
45	What is the earth's crust made of : a. sial b. sima c. nife d. none of these	
46	How many layers of the earth : a. 3 b. 10 c. 8 d. 6	
47	The word plate was used for the first time : a. Wilson b. Taylor c. Morgon d. None of these	
48	There is no reasons of erosion : a. Tree planting b. Deforestation c. Rain fall d. none of these	
49	U – shaped valley is formed : a. Glacier b. River c. Wind d. All of the above	
50	V – shaped valley is formed : a. River b. Glacier c. Wind d. None of these
